Poppin launches QT Lounge Sofa

➔ The QT Lounge Low Sofa, a new product in Poppin's product portfolio, reflects an understanding of the needs of the modern workplace and its evolving social spaces. The sofa was designed with comfort top-of-mind and features a cushy seat and pillows that are cozy and supportive.

Just as its name suggests, this piece is ideal for lounges, executive offices or just about anywhere in between. The QT Lounge Low Sofa features metal and solid wood frames layered with foam and fiber for a soft, springy feel. Poppin's palette of color offerings and matching color-stained solid ash legs allow it to integrate seamlessly into company branding or serve as an indicator of designated spaces. QT Lounge Low Sofa joins Poppin's growing QT Collection, and embodies the brand's commitment to its "work happy" philosophy.
