1

Mix Up the Panel Layout

Whether you want a specific arrangement of clear or opaque white glass, or you want to dress up your walls with fabric panels*, you can design PoppinSpaces with different materials and various levels of privacy.

**Fabric Panels coming soon!*

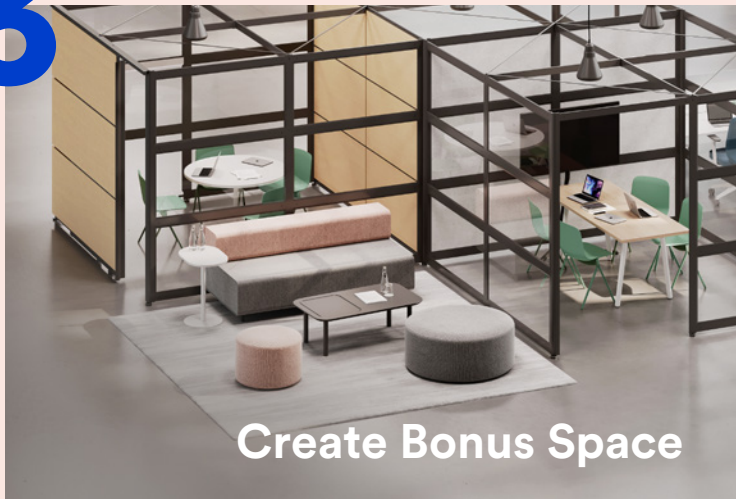

2

Combine Pre-Configured PoppinSpaces

We've designed a few ready-to-ship configurations that address the most common needs for Space. You can also easily mix and match them (for instance, combine a Confer Space with a Recess Space) to create new shapes that meet your needs.

3

Create Bonus Space

Want to really get fancy? Create Space with negative space. Combine three conference Spaces and get an added lounge Space. Or place Spaces next to each other with room in between (think: back-to-back Refocus Spaces) for an additional Space.

4

Partner with Poppin Space Planners

Not sure how to achieve a Space that meets your company's needs? Your Account Executive and our expert Space Planners can help you get started!
