

FRAME.IO

Frame.io is a video review and collaboration platform designed to unify media assets and creative conversations in a single attractive, user-friendly environment.

AT A GLANCE

Employees: 50+

Location: New York City

Industry: Tech Company

Products: Series L Adjustable Height Desks, Slim Stow File Cabinets, Round Touchpoint Tables, Series A Conference Tables

DESIGN CHALLENGE

After a growth phase, Frame.io needed to start fresh with a space that supports the continued scaling of the team.

THE GOAL

- Flexibility to add additional desks as the team continues to scale
- Offering more collaboration spaces
- Creating more opportunities for spontaneous interactions across the team

THE SOLUTION

- Establish a complete and flexible furniture system that can grow with the team
- In addition to Conference Rooms, provide small meeting tables for casual collaboration and spontaneous interactions.

“You want employees to be fired up to come to work everyday and have a space that allows them to be their best selves each and every day. This all starts with the look and feel of your office environment and permeates across the entire company.”

- Ellen Kraemer, Office Manager

CHANCE ENCOUNTERS

To combat any siloing that happens when a team grows, Frame.io focused on creating plenty of spaces for spontaneous interactions across departments. The Round Touchpoint Tables provide the perfect place to collaborate when the formal Conference Rooms are booked, or to have an afternoon snack with someone in another department.

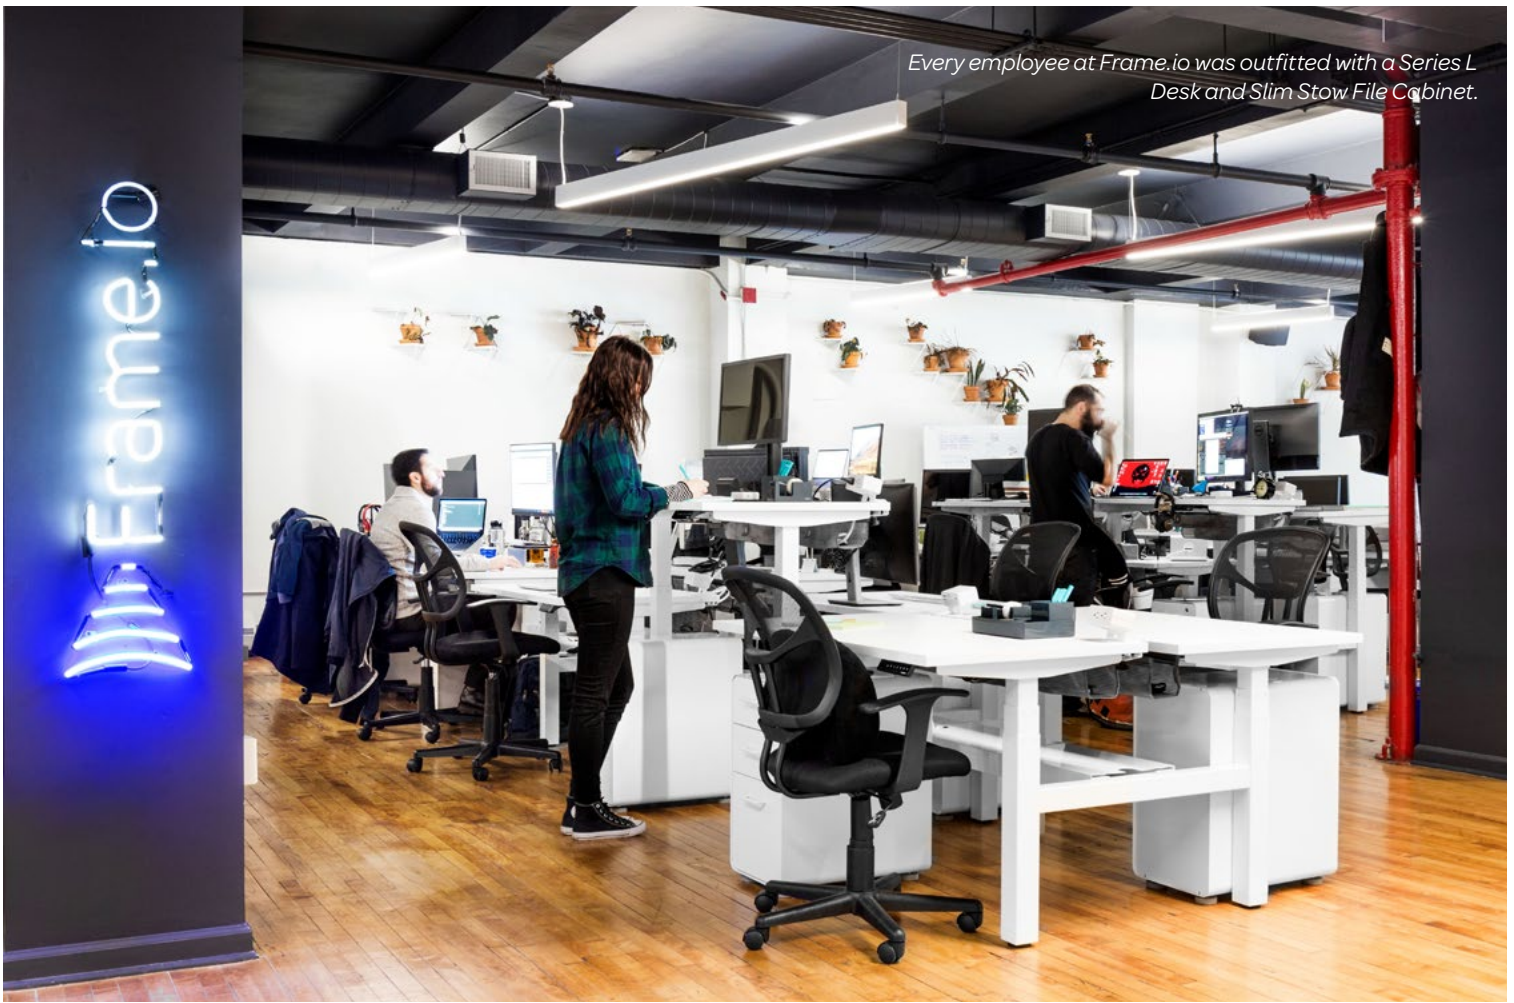

Touchpoint tables provide a great space for casual discussions or even a place to eat when the time comes.

GATHER 'ROUND

Sometimes teams just need a quiet space to meet. Frame.io set up multiple conference rooms, each with a different layout of Series A Conference Tables to service a variety of meeting sizes and types.

Series A Conference Tables come in a variety of sizes and can seat anywhere from 4 to 12 people.

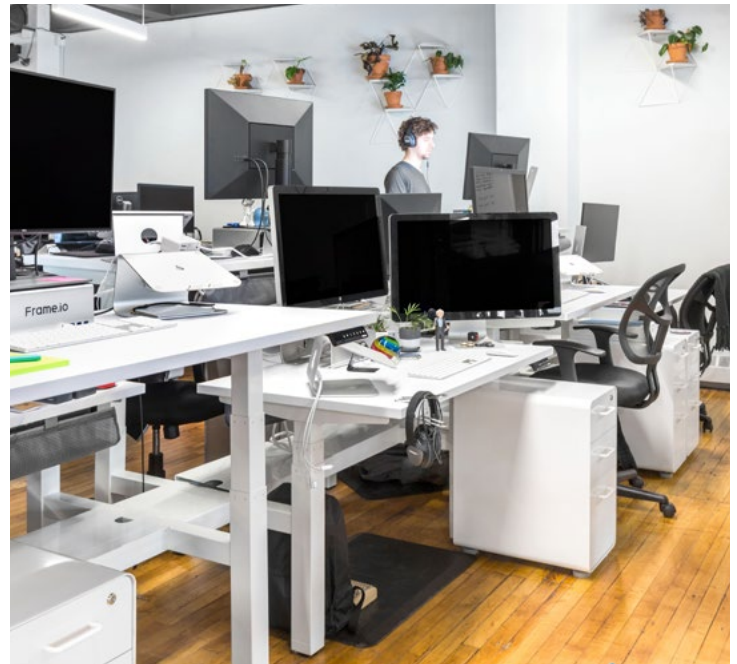

Every employee at Frame.io was outfitted with a Series L Desk and Slim Stow File Cabinet.

TAKE A STAND

Frame.io chose the Series L Adjustable Height Desks to provide their team with the flexibility to transition from sitting to standing in seconds. The Series L was the perfect choice for their open office environment, providing each employee with sufficient personal space without hindering in-the-moment communication. Moreover, the Series L Desks can easily be added and benched as the team continues to grow.

With tenth inch increments, the Series L Adjustable Height Desk can be customized to an employee's exact height of comfort.

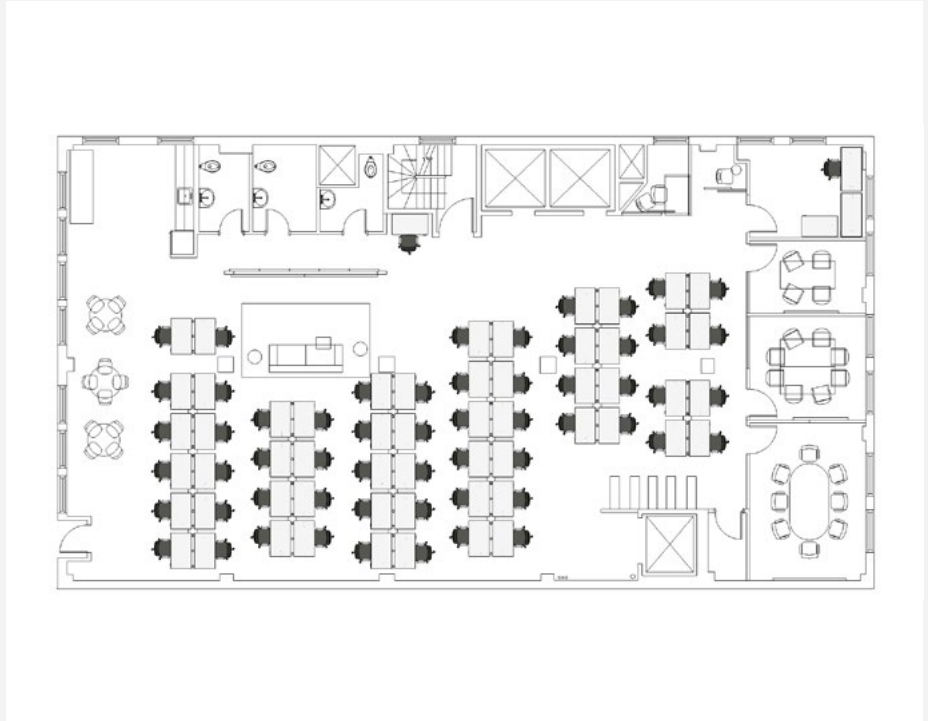

FLOORPLAN

We work directly with brands to create a custom concept based on the project's unique needs.

POPPIN TIP

To make a clean black and white palette feel modern and inviting, try incorporating additional furniture and accessories in neutral hues with varying textures for added warmth and dimension.
