SEATING

CURVE APPEAL

From chairs that invite guests to lean back and linger, to sofas with fluid lines that look equally right in workspace or social retreats, this month's seating has customized palettes and textures that have everyone sitting pretty.

BY ALICIA SHEBER

HOUTIQUE

houtique.es

Valencia, Spain-based creative consultancies Masquespacio and Really Nice Things partnered to create the Mambo chair featuring a polished chrome or 24-carat-gold-plated base. The piece's solid pinewood and fiber frame is covered in hard foam and includes a laminated board seat and a curved beech backrest with wadding. Upholstery is a backed, 100% polyester velvet reaching 45,000 Martindale cycles and, and the bottom edges are decorated with a 6.5-in. fringe.

7 BENCHMARK CONTRACT FURNITURE

benchmarkcontractfurniture.com

The Loop Chair collection, created by Arizona-based Italian furniture designer Antonio Larosa, comprises an outdoor aluminum version and a steel-frame indoor edition in polished or brushed chrome finishes complemented by leather, vinyl or fabric upholstery on high-density polyurethane foam. The chair measures 32.5-by-32-by-28 in.

9 INDUSTRY WEST

industrywest.com

Dutch product designer Robert Admiraal's namesake Admiraal Lounge Chair showcases a scooped back in a slender profile. Made from injection-molded polypropylene plastic affixed to wooden legs, an integral woolen-style polyester seat cushion and back support, the piece measures 25.7-by-27.5-by-29.7 in. with a 13.4-in. seat height.

11 POPPIN

poppin.com

The QT Chair Booth was designed for flexible relocation with assembly requiring only the included allen wrench. Developed to block distractions, encourage focus and offer a degree of privacy for two-person meetings, it also features an optional Omni Power Module. Metal and solid wood frames layered with foam are upholstered with a tufted surround and back pillows in assorted hues. Solid ash legs are color-stained to match fabrics.

8 ROCHE BOBOIS

roche-bobois.com

Cairn chair created by industrial designers Weiran Chen and George Plonis won first prize in the company's awards partnership with New York's Parsons School of Design. The back cushions resemble two pebbles and, along with the rounded seat cushion, come in four nature-inspired color combinations, while the beech frame is available in numerous stains.

10 D'STYLE BY KIMBALL HOSPITALITY

dstyleinc.com

Furniture and product designer Stanley Jay Friedman's Spiazzo Lounge Chair measures 32-by-25-by-28.5 in. and features ivory or ebony black leatherette upholstery and frame finishes in stainless steel (polished shown), powdercoating or hand-applied paint including colors such as gold leaf, silver patina, pewter, blackened steel and oil-rubbed bronze.

12 CHRIS SCHANCK

christopherschanck.com

Inspired by science fiction and aesthetics found in nature, the Alufoil collection from Detroit-based furniture designer and artist Chris Schanck includes chairs, tables, cabinets and other pieces. Suitable for contract use, the pieces are made from steel bases and sculpted foam covered with bright aluminum confectioners foil that is sealed with resin. Dimensions vary, and each piece is made-to-order. ●
